Bio

Jim Carroll is widely regarded as one of world's most respected keynote speakers on artificial intelligence & technology.

Jim Carroll is recognized as the world's leading futurist, trends and innovation experts, with a massive global blue-chip client list. Over the last 30 years, more than 2 million people have shared his insight at his events. Jim's global client list gives him a front-row seat to the high-velocity change that is occurring as disruption comes to take hold of every industry and every organization.

With that insight, and the customized research that he undertakes for every engagement, he helps to transform growth-oriented organizations into high-velocity innovation heroes! Jim provides high energy keynotes for audiences of 50 to 5,000, as well as intimate, customized strategic planning sessions for CEO/CxO, board, and senior management meetings.

He has researched key innovation success factors for dozens of organizations and industries including **life sciences, health care, insurance, automotive, manufacturing, agriculture, technology, education, government, consumer products, retail, banking** and countless others.

He has been invited in by **NASA** (twice) to share his insight on the future of the space industry; by **Disney**, to advise on new strategies for creativity and innovation; by the **PGA of America** for his thoughts on how to accelerate the golf industry; by **Pfizer** for insight on the future of medical science; by the **World Bank** for his thoughts on opportunities for economic development; and by the **Wall Street Journal** for his perspective on disruptive trends.

Jim Carroll is an author, with numerous books including *Now What?*, *Think Big, Start Small, Scale Fast*, *Surviving the Information Age*, *The Future Belongs To Those Who Are Fast*, *Ready, Set, Done*: and *What I Learned From Frogs in Texas*.
