## Jean-François Carrey: Adventurer, Motivator. Youngest Canadian to climb Mount Everest

Standing on the summit of Mount Everest and being the youngest Canadian to do so, raising all the funds for the expedition, training for the challenge and all this while obtaining a Bachelor in Commerce - J-F Carrey knows how to confront challenges and live life to the fullest.

We all have objectives and dreams that we want to achieve but sometimes we need a little inspiration and motivation to find the tools within ourselves to reach our goals.

### From a passion, to a dream Motivate your company!

Since Jean-François was young, he dreamed to climb Everest. In May 2006, J-F became the youngest Canadian to climb the world's highest mountain. The passion which ignited J-F's dream can be felt in his conferences. As a result, he inspires his listeners to transcend their limitations, and strive for those qualities which enable us to achieve our objectives: imagination, initiative, and co-operation.

**Perception, Perseverance and Performance** are the key principles that helped J-F to hold on to his dream of climbing Everest and succeed.

### Jean-François Carrey, the speaker:

He proposes a presentation that is adapted to the needs of each group. His cordial style accentuates the humor which he infuses into each recounting of his stories and analogies. Yet underlying each of his accounts is an element of seriousness culled from his past experiences. J-F's directness and authenticity put the participants of his presentations well at ease. By addressing the particular needs of each group, he assures that the expectations of his audience are met. As a lecturer, he is concerned with offering quality service.

*"JF Carrey is a charismatic speaker with abundant energy. You can see the fire in his eyes. His stories will certainly motivate anyone to reach their goals. If JF can climb Mount Everest, we can all climb our own personal mountains. He has personally helped me define my own mountain and has given me an action plan to conquer it. He has motivated me to thrive for greater things. Thanks JF!"*

**Martin Perras - President of The Leader's Institute of Canada**

#### THE BEGINNING

The passion for the mountains and the outdoors started when J-F was a scout at the age of 12.

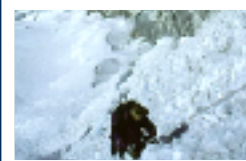

#### GUIDING THE NORTH

J-F has guided trips on Ellesmere Island, Baffin Island, the Mountain River and the Nahanni River.

#### A MOTIVATING TRIP

At the age of 18, J-F went to Nepal to see Everest and climb Imja Tse (6169m). This is where he received the motivation to move to concrete action.

# success on Everest

required imagination, determination  
and  
setting realistic goals

## PREPARING FOR EVEREST

A series of trips was planned in order to prepare for Everest. Trips like Pico de Orizaba(5640m), Mount Aconcagua (6959m) and Mount McKinley(6138m) were made.

## PLANNING FOR EVEREST

The cost of an Everest expedition is 50 000\$. Fundraising and getting sponsors was critical in order to achieve the dream.

## THE NEXT ADVENTURE

Adventurers are always looking for greater and bigger challenges. Visit J-F's website for the next adventure.

" your accomplishments will serve as inspiration for our nation "

**The Rt. Hon. Stephen Harper, Prime Minister of Canada**

"JF has the courage to dream big and the ability to create the path necessary to make dreams come true. He has the rare stuff that inspires people and organizations to reach for the stars and make the impossible-possible"

**John E. Turner, CEO of Net Infuse Inc.**

Book your next team meeting, focus session or keynote address with J-F.
