

the art of vision in education

You must see it before you can achieve it. Budget cutbacks, standardized testing and pressure to perform have forced the educational community to do more with less. The Art of Vision is an entertaining and highly practical program that inspires educators to define a clear, passionate vision for the future of our children. Whether you are a teacher, an administrator or a board member, we all have the ability to profoundly and positively impact the lives of our children. Erik will help each member of the audience identify their role in public education as an artist as well as an architect. The Art of Vision is an inspiring multimedia experience designed to explore new levels of success and achievement.

about the painting

Using art as his vehicle, Erik channels success strategies in a unique and entertaining way. His painting seamlessly becomes a visual metaphor for the fabric of his message. At the dramatic conclusion of his program, he turns the painting upside down to reveal a stunning new picture of lasting success. His skill as an artist, a dynamic performer and a speaker will leave you with a message that is as memorable as it is impactful. Erik's sought after paintings hang in executive offices and corporate headquarters around the country.
