

ECSTASY

Supercharge Love and Sexuality

Alpha and Theta Brainwave Frequencies and Music

Intensify feelings of rapture, sensuality and pleasure, slip on your headphones and listen to *Ecstasy*. Within minutes window frequencies activate your sexual chakras. You experience a euphoric rush of “releasing” and exaltation as endorphins flood into your system. This rapturous state of delight removes psychic barriers, deeply entrenched inhibitions and fears. You are transported to a realm of sensual inspiration and attuned to experience peak pleasure and sexual fulfillment.

Clinically Proven Method

This program balances right and left hemispheres of the brain to produce the remarkable mental state known as Hemispheric Synchronization. A special feature of Brain Sync technology is the use of scientifically researched frequencies called Window Frequencies, which fit through narrow biological windows to impact the body at a cellular level. Listeners say they can actually feel their meditation on a physical level, in rushes of positive energy and a flow of deep heartfelt emotions. Cumulative listening benefits include: increased sensitivity, enhanced access to emotions and heightened states of well being.

Instructions for Listening

Listen at a time when you will not be disturbed. Sit or lie comfortably with your spine straight. This allows your natural channels of energy to open and flow freely. Close your eyes and breathe slowly and deeply. For maximum long term benefits, listen daily for a period of six to eight weeks – or after as needed.

**To experience the brain optimizing effects of this program,
listen with headphones.**
