Virtual Team Building Testimonials:

"It was great to have Anthony lead my team in a virtual team building activity. With Covid-19 it is challenging to have the team engage in team-building activities to boost engagement as everyone is working remotely. The Magic of Collaboration was an excellent way to get team members to work together in a safe virtual environment. I would highly recommend it. The feedback from the team was that it was an extremely fun activity and they really enjoyed working closely over video conference with their colleagues."

- Shoppers Drug Mart

"Thank you, Anthony for hosting and leading an excellent team-building event for our team. It was great to work together as a team for something out of the ordinary. The efforts in planning the event for a virtual platform were both effective and great fun – a great way to still bring us together as we continue to navigate this new way of working and collaborating. This definitely made for some good laughs and brought out the “performers” we didn’t know we had amongst us!"

- 407 ETR

"Thank you Anthony for your Magic of Collaboration Virtual Team Building Session. Our work lives have drastically changed over the past few months because of the epidemic and also because we now work remotely more than ever before. Your fun activity reminded everyone of the benefits of team work and was most appreciated. The activities were fun and brought a smile on everyone’s face. Anthony is entertaining and professional. This was 75 minutes well spent! "

-GE Healthcare team

"Our leadership staff at the YWCA Niagara Region recently experienced a fun and interactive team building session with Anthony using a zoom meeting. We didn't know what to expect, but we were all surprised with how enjoyable the experience was. Each member got to play a role that was easy to follow and understand, and did so enthusiastically. Anthony created a great session that helped us understand our other team members strong points and comfort levels. This was a great way to reconnect during a time that is very uncertain and difficult. Thank you Anthony for giving us a great afternoon - and some neat tricks to hide up our sleeves!"

- YWCA Niagara Region

"In a time where we have all been experiencing so much separation it was wonderful to come together for a short while and share this session as a team. Thank you Anthony for facilitating a fun workshop that had us all laughing and learning."

- GM BluePlan Engineering

"We had a great time participating in the Magic of Collaboration virtual team building activity. Anthony did a great job with the online version of this program. Our team was engaged, the timing of the program was perfect and we had many laughs. Even though many of our team have worked together for years, we still learned something new about each other."
