## **Bio**

When companies like Microsoft, FedEx, and 3M want to accelerate their digital transformation journey, they call speaker Andrew Au. Digital technology has set a new equilibrium for organizations – from how they engage their customers to how they motivate their employees to how they innovate their products and services. This is where Andrew excels – he brings both substance and style to navigating disruption and future-proofing organizations, powered by big data and transformative ideas. Your audience will leave enlightened and eager to drive change. [morelink]
