Bio

Dr. Vikram Mansharamani is a global trend-watcher who shows people how to anticipate the future, manage risk, and spot opportunities. He gained widespread attention with the release of his first book, *Boombustology*, which provided a framework for spotting bubbles before they burst. Since then, he has been a frequent commentator on issues driving disruption in the global business environment. In his engrossing talks, Dr. Mansharamani steps back from complex market dynamics and uses a multiple-lens framework to look at disparate data to provide actionable insights and indispensable information.
