## Green Adventure - Downtown Toronto

Recognized as one of the greenest cities in North America, Toronto is an ideal place to raise the level of your team's environmental awareness. And now, with our Green Adventure, you can do so in way that is engaging, challenging, and fun.

Like all of our adventures, our new Green team event is environmentally-friendly and requires teams of 4-6 participants to sleuth on foot for answers to a set of interesting, diverse, and entertaining puzzles. But in this case, teams will be more concerned with their carbon footprints than with their actual footprints, they will be schooled in environmental terms by a green DJ, and will discover some surprising venues that are making the city a greener place in which to live and work.

Your team will complete the adventure with a better understanding of each other, the city, and what it means to be green.

Because our Green route includes some specific notable sites and venues in the downtown core, there are more limited options for customized starting and finishing locations than with our other metro adventures.

For more information contact us.
