

# the art of vision in healthcare

You must see it before you achieve it. As the landscape of healthcare continues to change, a clear vision is the key to successfully navigating tomorrow's uncharted waters. The Art of Vision is an entertaining and highly practical program that uncovers new ways to make your healthcare organization more productive and ultimately more profitable. Healthcare professionals who embrace innovation are better equipped to succeed in the future. Whether it's patient services, administrative issues or leadership principles, all healthcare organizations can achieve excellent levels, clinical excellence and superior patient safety by defining a vision of purpose and commitment.

## visionary excellence

- Transcending mediocrity
- Building a lasting vision

## embracing change

- Sustaining excellence in a changing economy
- Using change to leverage your performance

## empowering leadership

- Creating a culture of commitment
- Finding the heroism in your work

## about Erik Wahl

Erik Wahl is a nationally recognized artist and speaker who inspires healthcare professionals to achieve greater levels of performance. His consulting firm specializes in challenging organizations to utilize breakthrough thinking in order to achieve extraordinary results. Erik has keynoted meetings for America's top corporations, guest lectured at the London School of Business and performed for organizations all over the world.

## about the painting

Using art as his vehicle, Erik channels success strategies in a unique and entertaining way. His painting seamlessly becomes a visual metaphor for the fabric of his message. At the dramatic conclusion of his program, he turns the painting upside down to reveal a stunning new picture of lasting success. His skill as an artist, a dynamic performer and a speaker will leave you with a message that is as memorable as it is impactful. Erik's sought after paintings hang in executive offices and corporate headquarters around the country.
